Thank you for giving Livingston Cleaning a chance to earn your business. We work hard to earn your business and even harder to keep it. After becoming pregnant I decided I wasn't going to lay around and I wanted something for new mothers to do. I thought of this great idea for cleaning homes for the elderly and beyond. Most of our employees are single moms with babies that need a job they can bring their infants and toddlers to. Already a struggle for a lot of these young women they are hard workers looking for a chance to make their mark. I felt it in my heart to do my part.

Livingstoncleaning.com does all the leg work for you!!! All employees are Screened with a background check and drug test.

We are confident we only employ the greatest of likable characters that will not only keep your home/office in tip-top shape but will also bring an enjoyable , local , personable atmosphere right to your home 2 times a week. Contact us for any questions you have and we will get back to you asap. Livingstoncleaning.com also insures and guarantees your home to be in the exact same condition when we leave as it was when we got there. Only cleaner. ;)

Ladies if you are a newly mother who needs a job that they have to bring their infant/toddler to and feel this is a job for you contact us in the menu after you register at the site (free) and we will get your application in the system and start processing it to get you out of that house and networking in your local community.

Also, If you live in a community where these kinds of services are needed you can save substantially by combining your accounts with a "Neighborhood Package."
